

- Do you want to help to make Scotland more dementia friendly, accessible and enabled?
- Are you looking for advice to help your dementia responsive community thrive?

Join the Scottish Dementia Friendly Communities Network!

What is the Network?

A network of Scottish dementia friendly communities sharing support, empowerment and inspiration with people living with dementia and unpaid carers, in their own community.

Who can join the Network?

Every dementia friendly community in Scotland is welcomed, encouraged and supported to join. This includes established groups, new groups and people interested in starting or joining a community.

What does membership involve?

There is no formal membership as such, so you won't need to sign anything. Instead, we ask that members support some key principles of a dementia friendly community that were identified by the Life Changes Trust in 2019.

What else?

A monthly online meeting which will feature contributions from people living with dementia, unpaid carers, member groups, and special guests, along with regular newsletters, email updates, in-person meetings, and special learning events.

Interested? Find out more at age.scot/DFCN or contact Colm McBriarty:

Colm McBriarty is the Community Development Officer in Age Scotland's About Dementia team. He co-ordinates the Network and will be happy to answer your questions and offer more information.
